

INTRODUCING THE CAPP ECOPIPETTE INNOVATION

The **ecopipette** is packed using recyclable biodegradable material and constructed from some of the most durable resources available to ensure an extended lifetime.

Features:

- Lockable volume controller
- Reduced force requirement for aspiration and blow-out
- Large pad for tip ejection
- Robust metal tip base
- Double O rings for optimal seal
- Compatible with all major tip brands

The world's best medical technology — in the lab or at the point of care

Order online at www.pocdscientific.com.au or call 1800 640 075
